

Reactions from the music press to the album "Angels are Real" 2021 / 2022

				
<p>The album has a good drive and offers a lot of variety. The album gets the clear recommendation; buy it!</p>	<p>What I hear is well-played rock that reminds me of Muse in songs like "Picture of my Sins". There are musical parallels to bands like R.E.M. and U2.</p>	<p>Pilots of the Daydreams deliver powerful melodic guitar rock that lives above all from its atmosphere. Both thumbs up!</p>	<p>Anyone who can imagine a Swiss edition of The Cult should definitely listen to The Pilots Of The Daydreams with their stimulating debut "Angels Are Real".</p>	<p>Yes, that's how rock music must sound! In terms of content and music, this album is a hit!</p>

 <p>Light U2-style guitar and vocals once again suggest musical influences and consolidate the previous impressions.</p> <p>7.5 from 10 points Review 06.March 2021</p>	 <p>Once again, good rock music from Switzerland that is worth buying!</p> <p>07 April 2021 by Oli4 on CEDE.CH</p>	 <p>All in all, Angels Are Real is a successful record with high entertainment value and uplifting lyrics.</p> <p>21. May 2021</p>	 <p>This band really offers an album with a strong personality, where we feel that the musicians have really decided to enjoy themselves without any particular constraint, and that is what makes this work so appealing.</p> <p>26. May 2021</p>	 <p>At times there are guitar parts reminiscent of U2. Marco Predicatori's voice is wonderfully interspersed with a rough tone, which especially builds up the songs "Closer To The Sky" and "Lost Brotherhood" into veritable hits of the album.</p> <p>02. The vocals are very well executed and often remind of Bono from U2, the guitars often remind of THE CULT or also U2 and come across cool.

Nevertheless, PILOTS OF THE DAYDREAMS don't have any ordinary heart-ache stories in their luggage, but some to take off. And this must also be counted the powerful and variable vocals and of course the capital rock sound of POTD rock.
